TROY, KANSAS: Thursday, : : : : April 17, 1879.

SOLDIERS' GRAVES .- It is probably generally remembered that some years ago-in 1873-Congress passed a law providing for the erection of durable headstones over the graves of soldiers of the regular and volunteer forces of the United States whose remains are interred in the National Military Cemeteries. This law has been carried out, and the graves of the Nation's dead in these cometeries are now permanently marked. At the instance of the War Department Congress has recently authorized the erection of similar headstones over the graves of the Union soldiers who are buried in private and village cemeteries. This will be done as soon as the necessary arrangements can be made. In the meantime the Quartermaster General, at Washington, will at once proceed to collect the necessary information as to where these headstones are required.

ATCHISON AND NEBRASKA RAILROAD.-We have received a copy of the Fifth Annual Report of the Directors of the Atchison and Nebraska Railroad to the Stockholders, embracing the transactions of the year 187g. The receipts from all sources during the year were \$452,057 .-38, and the total expenses, exclusive of taxes, \$253,651.51-leaving a nett revenue of \$96,405.87. The increase in gross earnings over the previous year was \$38,182.48, and the increase in operating expenses, \$26,453.29. The increase in expenses, arose from work in protecting the river bank at Doniphan, Iowa Point, and the mouth of the Nemaha; in building a number of new and substantial bridges; and in laying a number of miles of new steel rails over heavy grades. Most of this work is permanent, and the expense will not be repeated during the current year. A dividend was declared of \$1 per share on stock issued, amounting to \$3,307.11. Among the expenses were included the burning of the machine shops at Atchison, and the payment of several heavy judgments for damages. The affairs of the road are represented as being in a prosperous and satisfactory condition, and the struction of several important branches is ander consideration.

The military court that has been trying Fitz-John Porter, has found him not guilty. This will restore him to his rank in the army and give him about \$75,000 back pay. Now that rebel testimony can be procured, which is more reliable than the testimony of loyal men, why not investigate the cases of Wirz and Wilkes Booth, and establish their innocence? They cannot be brought to life; but they may be proven martyrs, and monuments erected to their

Hendricks has written a letter in which be notifies the Democracy that he will not accept the second place on the Democratic ticket, in 1880. He will have President, or nothing. Tilden is also after the office bot, with his "bar'l," and says he will have the nomination, or smash the party. These gentlemen are wor rying for nothing. The Republicans will attend to smashing their party for them, and save them

The trial of Roehm, the Brown County Treasurer, for embezlement, has resulted in his acquittal. So that a "Reform" County Treasurer did not gebble \$12,000 or \$14,00 of the public money. It was all a Republican lie. The money just slid out of itself. By the way, what sort of a move was it to try a deputy for the embezzlement, instead of the man who was Treasures at the time, and who was responsible for the

We notice that our friend, Henry Lorenz, has been elected Police Judge of Toledo, Ohio. He was the Democratic candidate, and was the only city officer elected by either of the old parties over the Nationals. He will find that his customers in the Police Court are those upon whom perfumery would be wasted. They belong to the "sweet-scented" class.

Another office has been grafted upon the State of Kansas, to suck an appropriation at every session of the Legislature. It is the office of Fish Commissioner, whose duty is supposed to be to stock the Kausas streams with fish. It is all useless. They have a large Salmon out at Junction City, that is big enough to supply eggs to stock every water-course in the State.

LP We saw a statement in a St. Joseph paper a short time ago, that the offices of the Atchi son and Nebraska Railroad had been removed from Atchison to Kansas City, but have seen nothing of it in the Atchison papers. It seems hardly reasonable that the offices should be removed to a town not on the road, and miles distant from it. How is this?

The Republicans of Kentucky have to contend against fearful odds, but they are gritty. They held their State Convention, last week. It was attended by about 1500 delegates, and they adopted resolutions having the right ring. When Republicane in the South speak out so boldly, there is still hope even for Kentucky.

Cornelius Vanderbilt, Jr., has paid over to Horace Greeley's daughters the money be borrowed of their father, amounting to \$61,000. Not every editor could lend that amount of money to a rich man's rake of a son. We believe that it would almost embarrass us in our

In offering his Golden Medical Discovery and Pleasant Purgative Pellets for the cure of the above affections, Dr. Pierce does not recommend them as a "sure cure" in all stages. For if the lungs be half wasted away, or there be a cancerous complication, no physician or medicine can cure. The Discovery is, however, an unequaled pectoral and blood-purifier. It speedily cures the most aggravated cough, or cold, and in its carly or middle stages, consumption. By correcting all irregularities of the stomach and liver, it residily cures hlotches, pimples, scrofulous ulcers, "bunches," or tumors. Hundreds testify that it has restored their health, after eminent physicians had failed. For constipation, use the Pellets. As a local remedy for catarrh, use Dr. Sage's Catarrh Remedy. THE GREAT ST. Has secured three miles square of grass of the appeal fesserve.

We witnessed the examination of scholars in the public schools, with other gentleman and ladies, and must say that we were agreeably surprised at the advancement and good order of the schools. Prof. Kuehl and his assistant, Miss Kaseman, have had a full school, and attended with some drawbacks, but there is not a parent or scholar but will say that those teachers have given satisfaction.

CLOD-HOFFER.

[We have not room for the school report sent with the above; and it is too complicated, if we had. We shall at all times be pleased to publish school reports that are snything in reason; but this one would require two columns in width, and would cost us three prices for type-setting. -ED.]

Died, on Saturday, April 12, 1879, of scarlet fever, Hala, youngest daughter of Mr. and Mrs. Joseph Thompson.

Our mill prospects are looming up considerably, and it is almost sure that there will be a flour mill located here soon. Mr. Kereher and Mr. Jenicke will give the location. The enterprise and public spirit of these gentlemen is praiseworthy, for instead of asking a fabulous price, they generonally donate the site for the use of the mill company. These parties are old and experienced millers, and seem to understand their business, and they say that the location is a good one, and, in fact, the best on the river. Sol., tis a boy, and a good one. Class up, and every thing lovely.

Mrs. Transer. Success to them, in their happiness.
